

Team Work Agreement:

- Treat team members with respect and listen to what everyone has to say
- We will have three daily meetings a week (Tuesday, Wednesday, Thursday from 3:30 - 3:45 at BE-302 on Tu/Th and 3-3:45 on Wed) where attendance is mandatory to discuss our progress and what we will work on
- We will use the Github repo <https://github.com/andychenbruce/COGNOSO> to keep track of our progress
- Everyone should look at scrum board at <https://github.com/users/andychenbruce/projects/1> for their assigned tasks and mark the status of their tasks
- Everyone should use their own branch and make a pull request to main when making significant changes (when we are not together)
- Write comments for the sections of code that you write so that everyone else can also understand it
- Stay in regular communication over Discord about status of work and if any help is needed
- Provide honest feedback in the TSRs
- Definition of Done (User Story):
 - No compile errors in code
 - Passes CI/CD
 - Passes manual tests
 - Meets all criteria for user story
 - Code is commented/documented
 - Approved by Product Owner
- Style Guide
 - Frontend
 - Use typescript for static type checking javascript
 - Use Eslint for code linting common errors and conventions.
 - Use JS prettier for formatting
 - Backend
 - Use “cargo clippy” for
 - Linting common errors
 - Enforcing variable, classes, function naming conventions
 - Using “cargo format” for indentation
