Sprint #4 Report
2024-03-12
Cognoso

Actions to stop doing:

- Merging code to the main branch when it is full of errors.
  - This leads to other people's work to stop and wait for the errors to be addressed.
  - Pushes back on the progress towards the goals.

Actions to start doing:

- Cleaning up code
  - Start having cleaner code to make it easier to understand and identify if bugs arise.
  - Remove unwanted comments and lines of code.
- Fixing bugs that arise
  - With it being the last sprint, we want to address as many bugs as possible before release. We have to test the products extensively and fix bugs.

Actions to keep doing:

- Keep the bi-weekly meetings going at the same time
  - Works for all of our schedules and no conflicts with other classes
- Use shared Google Drive for important documents
  - Helps us keep track of all of the sprint information and makes sure that everyone has access to the documents
- Use Discord for general communication and tasks
  - Good for giving status updates and communicating on any points of confusion
  - Helps us track tasks through to-do list in shared channels
  - Allows us to send and track documents and view message history
- Work overtime to complete tasks
  - With the deadline coming up, work has to be increased and efficiently to reach the goals for the deadline.
- More productive work sessions/meetings
  - Have a set goal which will be met by the end of the work session

Work Completed/Not Completed:

- Not completed
- In Progress
- Completed
  - Fix and make the UI better for all the pages.
  - Upload pdfs to create flashcards
  - Add my flashcard decks on the home page
  - See other user-made flashcard sets
  - Save my favorite flashcards
  - Rate other peoples cards and see rating for your own
  - Set icons for decks
